Introduction:

VillageCare's Code of Conduct ("Code") is a compilation of the ethical and legal guidelines pursuant to which VillageCare directors, officers and employees are expected to carry out their professional duties. This Code applies to employees, directors and officers of all of VillageCare's affiliates and subsidiaries (collectively, "VillageCare"). The Code cannot cover every circumstance which may arise. It is meant to be a statement that is both broad and clear, but in many instances, a more comprehensive statement of VillageCare policy will apply. If you find yourself in a situation which is not specifically addressed in this Code, you should seek guidance from your supervisor, Human Resources, Legal Department or the Chief Compliance Officer.

Compliance with Law

All directors, officers, and employees are required to comply with all federal, state and local laws, and rules and regulations applicable to VillageCare's business. If you have any questions about the terms or applicability of any law, rule or regulation, you should contact the Legal Department or the Chief Compliance Officer for advice.

Honoraria and other compensation

You may be asked to give your time and expertise to activities outside of VillageCare during normal business hours, such as giving a speech or teaching at a seminar. You should first discuss the opportunity with your supervisor, to assure that the activity doesn't violate VillageCare's Conflict of Interest Policy and that the staffing needs of the department are met. If you take part in an outside activity during normal working hours, and you are compensated for that activity, you must either turn over the compensation to VillageCare or take vacation or personal time for the time you spend away from your job at VillageCare.

Preventing health care fraud and abuse, which drains the health care system of funds needed to provide patient care, is a high priority at VillageCare. We are committed to safeguarding health care funds and will not accept or offer incentives, other than as permitted by law, in exchange for referrals of business to providers or vendors. Violations of the anti-kickback laws are serious offenses and carry both civil and criminal penalties for individuals as well VillageCare and could lead to exclusion of VillageCare from participation in federally-funded healthcare programs such as Medicare and Medicaid.

Fraud - an intentional deception or misrepresentation made by a person with the knowledge that the deception could result in some unauthorized benefit to him/herself, some other person or VillageCare. It includes any act that constitutes fraud under applicable federal or State law.

Waste - The thoughtless or careless expenditure, consumption, mismanagement, use, or squandering of resources to the detriment or potential detriment of government. Waste also includes incurring unnecessary costs because of inefficient or ineffective practices, systems, or controls.

Abuse- means provider practices that are inconsistent with sound fiscal, business, or medical practices, and result in an unnecessary cost to the Medicaid or Medicare programs, or in reimbursement for services that are not medically necessary or that fail to meet professionally recognized standards for health care. It also includes enrollee practices that result in unnecessary cost to the Medicaid and/or Medicare programs.
